# INTRODUCTION & STRATEGIC DIRECTION

**LEGEND CONSTRUCTION LTD** is a multidisciplinary construction firm, fully Tanzanian-owned and legally incorporated under the Companies Ordinance (Cap 212). We are registered with the Contractors Registration Board (CRB) as a Class Five contractor for both Building Works and Civil Works.

Headquartered in Kwembe, Dar es Salaam, Legend Construction was established to provide engineering excellence in a market that demands precision and reliability. While we are a modern firm, our leadership brings over a decade of high-level industry experience, having managed major infrastructure and high-rise projects across Tanzania.

We differentiate ourselves through our "Owner-Managed" approach—our directors are technical engineers who are hands-on at every site, ensuring that the gap between design and execution is closed effectively.

*"We deliver Integrity, Quality and innovation"*

# MISSION ,VISION & VALUES

## MISSION

To exceed client expectations by providing quality services within the given timeframe, utilizing skilled workmanship and modern technology.

## VISION

To become the Best Construction Company for all our clients by providing sustainable solutions and superior workmanship.

## CORE VALUES

**Integrity**  
**Quality Consciousness**  
**Team Work**  
**Client Satisfaction**

# EXECUTIVE PORTFOLIO : INDUSTRIAL & ENERGY INFRASTRUCTURE

## 4.1 INDUSTRIAL & ENERGY INFRASTRUCTURE

Demonstrating our ability to work in high-risk, technically demanding environments.

### Kinyerezi I Power Plant Extension (185 MW)

**Role:** Site Engineering & Quality Control.

**Scope:** Managed civil works for the power plant extension.

Responsibilities included day-to-day management of site labor, checking plans and drawings for accuracy, and overseeing material selection.

**Key Competency:** Adherence to strict energy-sector safety standards and technical reporting.

### Kamal Steel Factory Industrial Complex

**Scope:** Comprehensive industrial expansion including:

Construction of the 8T MRK Air Pollution Control Facility.

Extension of the Gas Plant at Mwakalinga Road.

Construction of a heavy-duty Waste Water Management System.

Construction of new shade for steel bar storage

# EXECUTIVE PORTFOLIO :

HIGH-RISE COMMERCIAL &  
RESIDENTIAL STRUCTURES

Proving our capacity for vertical construction and structural rigidity.

**Ilala & Kijitonyama High-Rise Towers (G+9)**  
Project: Construction of Commercial & Residential Building (G+9) at Ilala

Municipality (Plot 1285/84) and Residential Building (G+9) at Kijitonyama.

**Role:** Construction Project Manager.

**Key Competency:** Full structural execution of 9-story reinforced concrete frames, masonry, and finishing.

## Kamal EPZ Staff Housing

Scope: Construction of G+1 Staff House and renovation of existing staff houses at Bagamoyo313

*“We deliver Integrity, Quality and innovation”*

# EXECUTIVE PORTFOLIO :

LUXURY RESIDENTIAL &  
ESTATE DEVELOPMENT

"The Soul" – Zanzibar (Paje)

Role: Project Manager (Feb 2022 – 2025)

Scope: Oversight of a major residential development including buildings, infrastructure, and amenities.

**Key Competency:** Managing the entire project lifecycle, negotiating contracts, ensuring MEP compliance (water/sewage/generators), and coordinating subcontractors.

**NHC Apartments – Kigamboni**

Role: Site Engineer

Scope: Construction of National Housing Corporation residential apartments.

# PLANT & EQUIPMENT ASSETS

**LEGEND Construction Ltd** maintains a robust inventory of OWNED assets. This ensures we can mobilize to site immediately and control our project schedules effectively without relying on rental availability.

## HEAVY PLANT & LOGISTICS FLEET

We possess the logistical capacity to move materials and clear sites independently.

Name	Description	Condition	Capability
Crane	CRANE QY16H431	Good	Essential for Lifting operations.
Tipper Truck	FAW (T129 EDD)	Good (2 Units)	Heavy material haulage (Aggregate/Sand).
Truck	Mitsubishi Fuso (T882 AXE)	Good	Site clearance and spoil removal.
Support Truck	Leyland / Mitsubishi	Good	Logistics and material delivery.
Site Vehicles	Tata pickup truck, Land rover discovery 4 and Toyota harrier	Good	Supervision and site management

# PLANT & EQUIPMENT ASSETS

## CONCRETE & SITE FABRICATION

Our on-site production capability ensures structural quality control.

**Concrete Mixers:** 3 Units (Good Condition). Essential for consistent batching

**Poker Vibrators:** 3 Units (Robin Brand). Critical for structural concrete integrity

**Plate Compactor:** Mikasa Sangyo (MT-72FW). For trench and paving compaction

**Block Making Machines:** 2 Units. Allows for on-site production of masonry blocks

**Fabrication:** Reinforcement Bar Cutting Machine and Welding Machines (x2)

## SURVEYING & PRECISION TOOLS

We invest in accuracy. Our engineering team uses top-tier optical equipment.

**Theodolite Machine:** Leica

**Dumpy Level:** Sokia

**Generator:** 50KVA Diesel Generator (for full site power) and 5KVA Standby Generator

# AREA OF EXPERTISE

## 1. BUILDING WORKS

Commercial Construction: Office blocks, retail spaces, and warehouses.

Residential Construction: Turnkey private residences, housing estates, and apartments.

Renovation: Structural alterations, interior fit-outs, and modernization.

Maintenance: Roofing repairs, waterproofing, and structural maintenance

# AREA OF EXPERTISE

## 2 CIVIL WORKS

Road Infrastructures: Design, rehabilitation and construction of roads, paving block driveways, and associated drainage.

Water Supply & Sanitation: Construction of waste and clean water systems, culverts, and storm drainage.

Structural Engineering: Bridges, retaining walls, and industrial foundations.

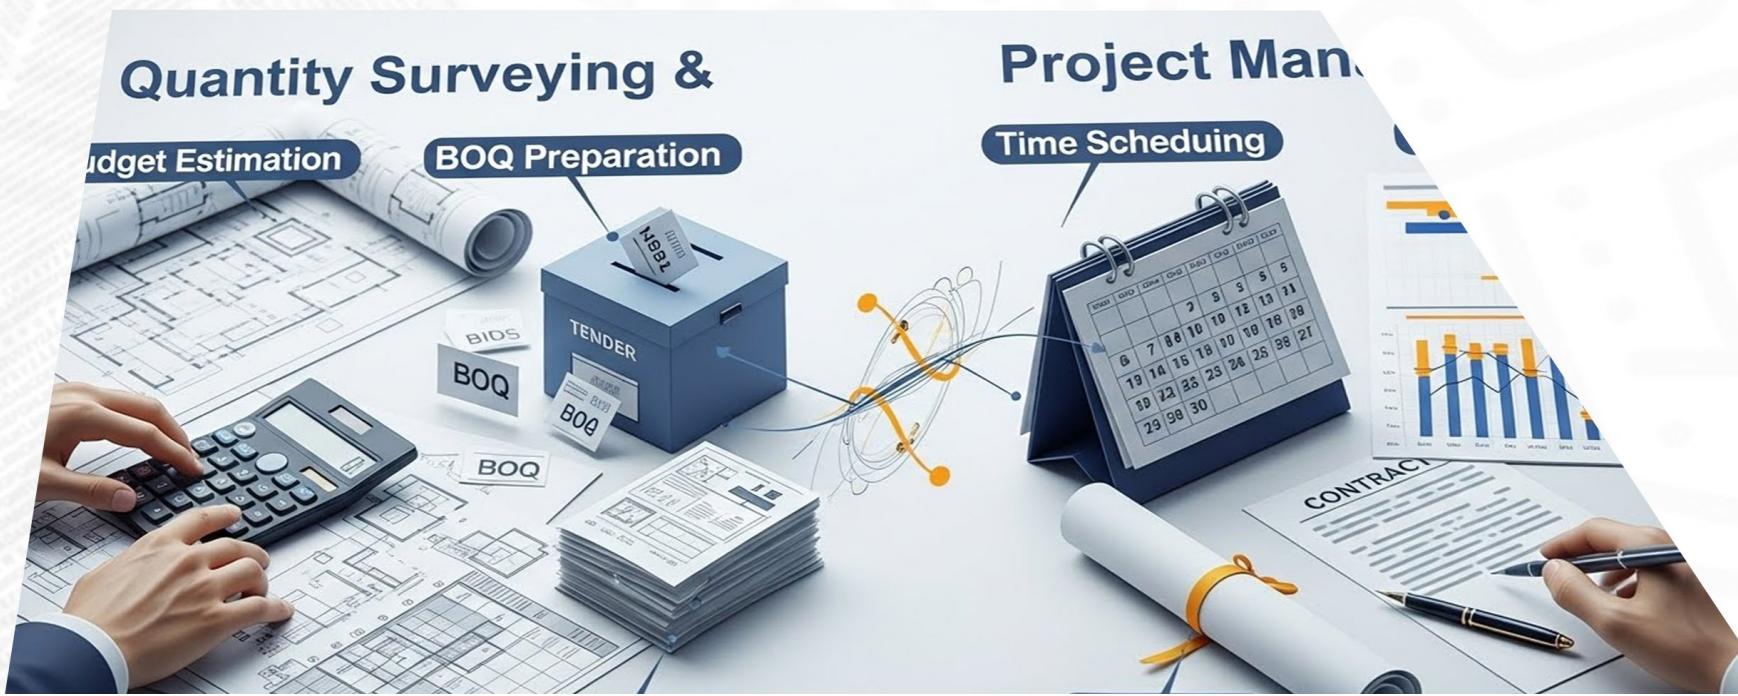

# AREA OF EXPERTISE

## 3 CONSULTANCY & MANAGEMENT

Quantity Surveying: Budget estimation, BOQ preparation, and tender procurement.

Project Management: Time scheduling, cost control, and contract administration.

# HSE POLICY STATEMENT (ZERO HARM COMMITMENT)

At **LEGEND CONSTRUCTION LTD**, we believe that no project is successful unless it is completed safely. Our operational philosophy is anchored in a "Zero Harm" commitment ensuring that every employee, subcontractor, and visitor returns home safely every day.

We achieve this through:

**Strict Compliance:** Adhering to the Occupational Health and Safety Act (OSHA) of Tanzania and international best practices.

**Mandatory Protection:** enforcing the strict use of Personal Protective Equipment (PPE) including helmets, safety boots, and reflective jackets on all sites.

**Continuous Training:** Conducting regular toolbox talks and safety inductions to ensure all personnel are aware of site-specific hazards.

**Risk Management:** insuring all projects against personal injury, damage to property, and third-party liability to mitigate unforeseen risks.

# QUALITY MANAGEMENT

Legend Construction operates in strict accordance with the principles of ISO 9001:2015 Quality Management Systems. While we are currently in the process of formal certification, our internal quality controls are rigorous and embedded in every stage of construction.

**Our Quality Assurance process includes:**

**Material Verification:** All incoming materials (cement, steel, aggregates) are inspected and tested to ensure they meet approved specifications before use.

**Stage-Gate Inspections:** Work is inspected at critical milestones (excavation, reinforcement, casting) before proceeding to the next phase.

**Standardization:** We utilize approved architectural and structural drawings to guide all site execution, ensuring precision and structural integrity.

# CERTIFICATE & COMPLIANCE

We are committed to professional excellence and hold the following statutory compliances:

**Tax Compliance:** Registered with the Tanzania Revenue Authority (TRA) with valid TIN and VRN.

**Safety Compliance:** Compliant with OSHA (Occupational Safety and Health Authority) regulations for construction sites.

**Insurance:** All active sites hold Contractors All Risk (CAR) Insurance and Workers Compensation policies.

# GOVERNMENT REGISTRATION

LEGEND CONSTRUCTION LTD is fully registered and certified by the Contractors Registration Board (CRB) of Tanzania, authorizing us to undertake medium-scale projects across the country.

**Building Works Contractor: Class V**

**Registration Number: B5/2004/12/2025**

**Civil Works Contractor: Class V**
